Dear Sir,

### Conspicuously Utilitarian Benedictine Exhibition 2011

The Oldest Catholic Institute of Education in the capital city of the island, St. Benedict's College has been heralding the mission of educating the nation over 146 years. In preparation to mark her proud service of long 15 decades, we are organizing an academic exhibition of unique style and grandeur.

This exhibition will provide a stage for the budding Benedictines to showcase their innovative talents and creative concepts in visible form. This will also foretell the kind of education that the country needs for this millennium as the present government prepares the ground and infrastructure to make Sri Lanka, 'the hub of education' in the South Asia region. This will be a collection of conspicuous developments and trends of education and its utilitarian aspects projected in a novel way with more expertise touch.

This exhibition expands its horizons to accommodate all the subjects taught in our school including co-curricular and extra curricular activities. While exhibiting various aspects and approaches of empirical sciences, students will also learn the practical applications of their theoretical knowledge. We hope this will enhance the comprehension of the idealisms and theories learned in the classroom to the best.

This Exhibition is scheduled to have on the following days at St. Benedict's College premises.

*Dates: - 15<sup>th</sup>, 16<sup>th</sup> & 17<sup>th</sup> of September 2011 (from 9.00a.m. to 9.00p.m.)*

This rare experience will therefore, be opened to the general public who seeks more knowledge on various fields of science and art. We also hope to invite all the schools in Colombo Educational Zone, especially Colombo North Division. Thus, we expect to have over 25000 children to visit this exhibition and equal number of others.

Mr. Demotious Fernando- 071 4440072

It is with great pleasure that we address you to extend our sincere gratitude for your willingness extended to Masters Shenal Dabare and Praveen Alexis to make their " Drawing Mechine" which is going to be exhibited in the forth coming exhibition organized by our College. They are very much interested on this subject and creative in making things basing on the principles they learn in the classroom. As we provide more opportunity for the up coming generation to come out with novel ideas and productions, we always encourage their little efforts to materialize. But other than God given talents they are not in a position of getting the necessary tools and equipment for their work. Your support, therefore, will be an enormous encouragement for them to expand their interest and talents on this field. We wish that your kind generosity may be rewarded with multiple blessings of temporal and eternal.

Thank you.

Yours faithfully,

Rev. Bro. Granville Perera FSC

Director,

St. Benedict's College.

REV. BRO. GRANVILLE PERERA F.S.C.
